## ABOUT ME

Don't let Galo fool you, while he is a fresh face on the scene, he is no stranger to musicianship. The Connecticut-native has humble beginnings in studying music theory and learning an impressive six instruments by age 18.

Having relocated to Florida to pursue his Master's, Galo found himself splitting his time between conducting research and writing music. With notable releases on Night Service Only, Hood Politics, Space Yacht, Uprise, and Do Not Duplicate, Galo has seen support from the likes of John Summit, Lee Foss, CID, Dr. Fresch, Gordo, David Guetta, Franky Rizado, Liquid Todd and many others.

School is out and the Florida sun is shining, so keep your eyes peeled for this rising artist. There is much more in the books for Galo.
